

# VIGO 2019

## Candidacy GP EFRA Series

# Welcome to Vigo

Immerse yourself in Vigo, in the charm of the biggest city of Galicia and discover the heart of the Rías Baixas: its light, its temperate climate, its gastronomy, its culture and its incredible landscape. Visit Vigo and let yourself be carried away by this singular city that always leaves its mark.

This seafaring city, tireless and enterprising spirit, combines its vibrant urban life with one of the most beautiful natural landscapes of Galicia: the Cies Islands, an essential visit for all those who seek a trip to the north, as a couple, with friends or for the entire family. The southern destination of Galicia ideal to enjoy nature: in the heart of the Vigo estuary, with fabulous beaches, but with a diverse offer of nightlife, culture, shopping and entertainment for all tastes ... and all pockets.

# Vigo connected to the world.

The city of Vigo has all the necessary connections to reach it from any city in Europe and the world. Vigo has a train station with trains from the main cities of Spain, with direct connection to Madrid and Barcelona with two daily frequencies.

The Vigo airport currently has more than 1 million passengers each year and with direct flights from the main Spanish and European airports, as well as being indirectly connected to any place on the planet.

## DIRECT ROUTES TO VIGO AIRPORT (2018):

- MADRID
- BARCELONA
- VALENCIA
- SEVILLA
- BILBAO
- GRAN CANARIA
- IBIZA
- TENERIFE
- LISBOA
- MILAN
- LONDRES
- BOLONIA
- DUBLÍN
- EDIMBURGO
- PARÍS

# Hotel offer for all budgets

The most populated city of Galicia has a more than enough hotel offer to meet the needs of any event that takes place.

In Vigo you can find from a campsite located on the beach where the Circuit is located to the most luxurious hotels in the northwest of Spain.

In total Vigo has more than 4.700 hotel rooms, adapted to all tastes and needs.

In addition, for those who come to compete in a motorhome, a special car park will be enabled with access to water, electricity and services from the circuit itself and with 24-hour surveillance.

# Samil Beach.

## The beach with the best services in Spain.

The Samil Radio Control Circuit is located at the foot of the beach that gives it its name. With a length of more than 1,100 meters, this beach also has a unique range of services in Spain: free swimming pools for children, numerous restaurants and leisure facilities, sports courts for basketball, football, tennis, skating, skateboarding, radio control cars..

The massive influx of visitors to this beach during the summer months and the existence of permanent bleachers in the circuit means that during the celebration of each race thousands are the people who disfer from the spectacle of the races, which also provides an extra incentive for the pilots.

# **Samil Circuit**

## **A reference circuit in Spain**

**The circuit of Samil was inaugurated at the end of 1986, although its official inauguration took place in 1987 with the dispute of an EFRA Grand Prix of the category 1/8 Gas Tracks.**

**Since then, local, regional and national tests of Samil have been disputed uninterruptedly during its more than 30 years of life, in all categories. It is undoubtedly the most legendary route of automodelismo in Spain as well as the north of Portugal due to its proximity to the neighboring country.**

**Many of the best drivers from Spain and Europe have ever participated in a race in Samil. As an example, the Portuguese pilot Bruno Coelho who started in this sport in Vigo.**

**Since its inauguration at the end of the 80's, the installations have been remodeled in multiple occasions, the last one of them took place this year on the occasion of the celebration of the Championship of Spain of 1/8 gas, which makes it undoubtedly currently in one of the best circuits in Spain and Europe both for its facilities and its privileged location.**

# CLUB AUTOMODELISTA VIGUÉS

At the end of the 80s a group of amateurs to the radio control cars, after organizing a lot of championships in provisional circuits, decide to request to the city council of Vigo the construction of a permanent circuit in the beach of Samil.

After a hard work the surgeon is inaugurated in 1987 with the dispute of a Great Prize EFRA.

Since then the CAVI has not stopped organizing tests at a local, regional and national level in an uninterrupted way throughout these more than 30 years.

All the pilots who have visited Vigo praise both the layout and facilities, undoubtedly one of the best in Europe, and the impeccable organization that has always characterized this club.

The CAVI and the circuit of Samil are the longest in Spain and even so it remains younger than ever since after the last reform undertaken this year the circuit is in unbeatable conditions. However, from the CAVI we continue day by day improving our facilities.

For all these reasons and as the culmination of these more than 30 years of history, this is why we present this application to host an EFRA Grand Prize in 2019.
